ISHG Summer Internship Program-2025

The ISHG announces **Summer Internship in Human Genetics (SIHG-2025)** for the enthusiastic postgraduate students for a duration of two months. This is an incredible opportunity to gain hands-on experience and invaluable insights in the frontiers of Human Genetics.

Guidelines:

- **Eligibility:** Applicants currently pursuing M.Sc. (having completed at least Semester II) in any branches of Life Science/Biotechnology. The applicants need to secure an acceptance letter from a scientist or faculty in a regular position in a research organization or university and is a Life Member of the Indian Society of Human Genetics.
- The applicants need to submit a 500-word summary on the proposed work and a letter of motivation.
- **Selection:** The short-listing of the applicants will be done based on the summary of the proposed work and motivation letter. The shortlisted candidates may be called for an online interview by the ISHG secretariat.

Duration of the internship : Two Months

Stipend amount : Rs. 5, 000 per Month

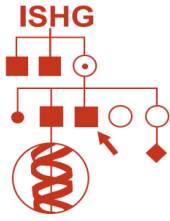

Number of SIHG internship: Two

Why Choose ISHG Internship Program?

- **Expert Guidance:** Work closely and benefit from research mentors who are pioneers in the field of Human Genetics.
- **Hands-on Experience:** Get involved in cutting-edge research and practical laboratory works. Learn essential techniques and methodologies first hand.
- **Networking Opportunities:** Build connections with professionals in the field. Expand your learning capabilities and prepare yourself for future career development.
- **Career Development:** Gain valuable skills and insights that will enhance your academic and professional journey.
